

# Welcome to the Public Meeting for the 78TH STREET IMPROVEMENTS MERCY ROAD TO PACIFIC STREET

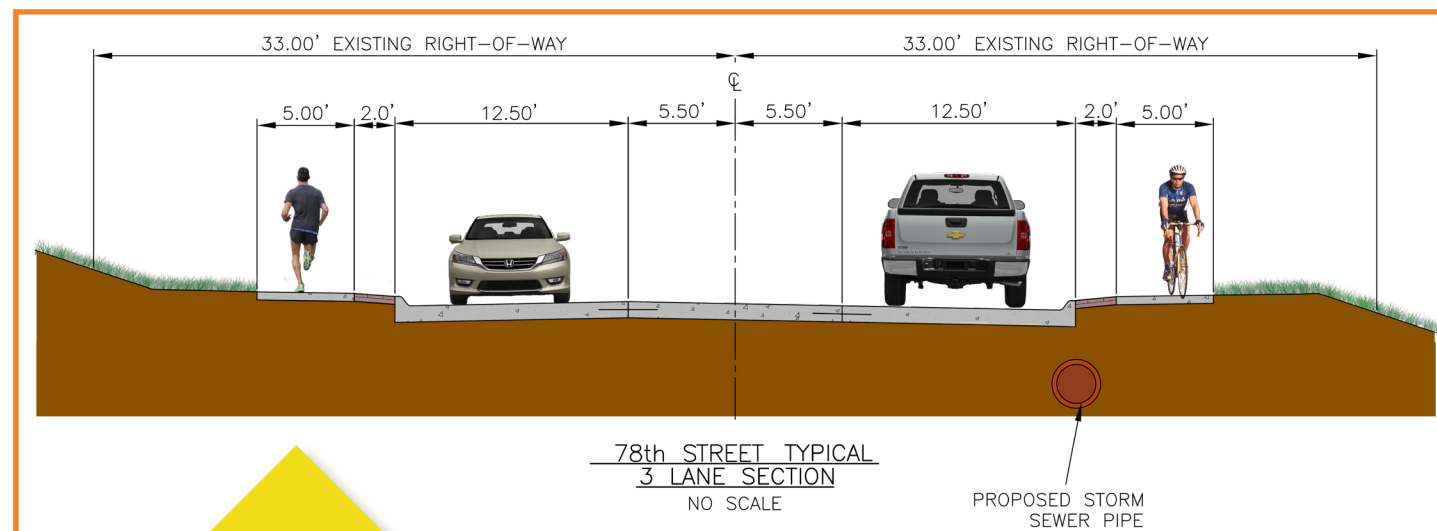

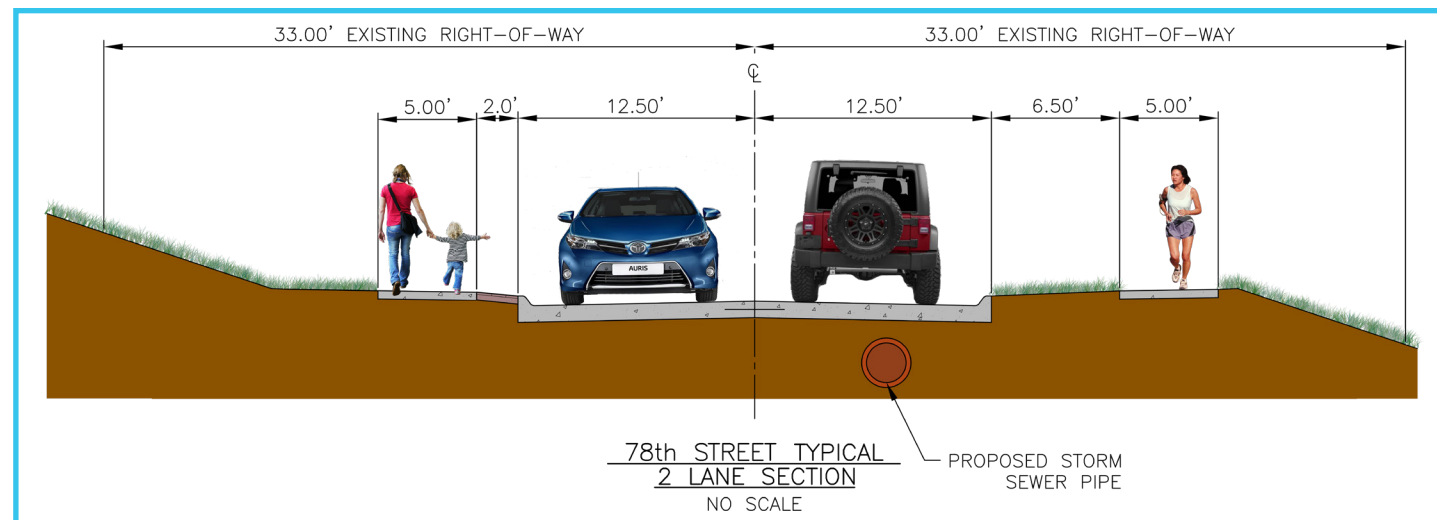

Tuesday, January 28, 2020 · 6:30 PM - 8:00 PM · Presentation at 6:45 PM  
Carl A. Swanson Elementary School

## WELCOME!

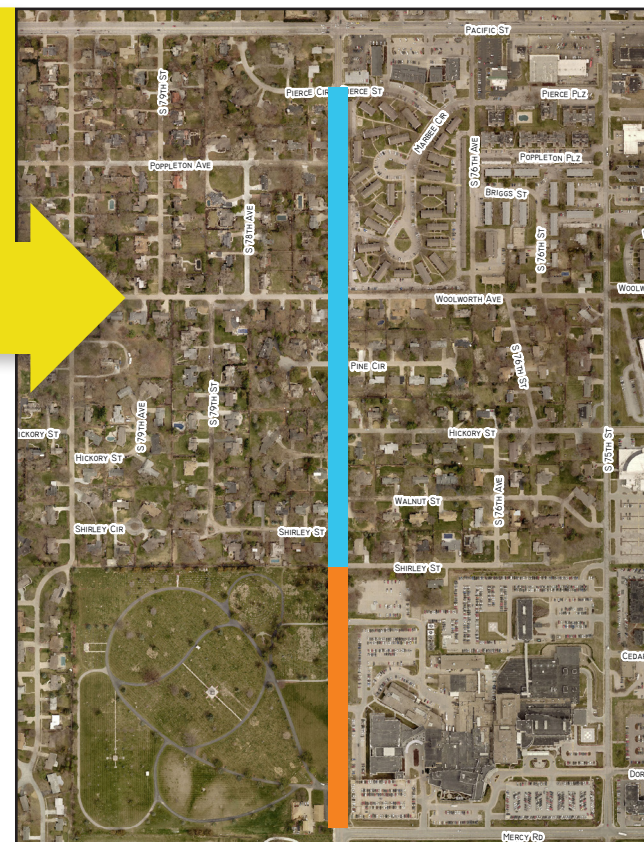

Welcome to the second public meeting on the 78th Street Improvement Project! The purpose of this meeting is to share information about the construction of the project along 78th Street and Poppleton Avenue. A brief presentation will begin at 6:45 pm. Team members from the City of Omaha and the design consultant will be available after the presentation to discuss the project.

## PROJECT OVERVIEW

This project provides the opportunity to address safety issues along the project corridor that result from inadequate sight distance, the lack of sidewalks, and the lack of storm sewers, in addition to the necessary replacement of the aging street pavement. The project will include the reconstruction of 78th Street, from Mercy Road to Pacific Street. Improvements will include street pavement, sidewalks, storm sewers, driveways, retaining walls, and the relocation and upgrades to existing utilities along the corridor. Street improvements on Poppleton Avenue from 78th Avenue to 78th Street will be constructed in conjunction with this project.
