April 28, 2022

City of Omaha Public Works Project 168th Street, West Center Road to Pacific Street

Dear Resident,

As sod installation along the east side of 168th Street from Center Street to Pacific Street nears completion the temporary fences will be removed which will allow you to install your new fencing. Please feel free to finalize schedules or notify your preferred fencing company to repair your fences beginning the week of May 9, 2022. Property owners are responsible for installing sprinklers and permanent fence along the sides of the yard tying into the fence that the contractor installed at the Right-of-Way line.

The installation of internet services will continue as necessary until the companies are complete with their permanent installations. If there are any specific questions related to this work, please contact your service provider directly.

For any questions regarding removal of temporary fencing and/or placement of the fencing on the ROW please contact Troy Renken at (402) 980-4030 or by email at trenken@olsson.com.

Thank you
