Robert G. Stubbe, P.E.
Public Works Director

Dear Resident/Business/Property Owner:

The City of Omaha, as part of the Capital Improvement Plan, has been working to upgrade the 156th corridor from Pacific St. to West Dodge Rd. The City awarded a contract to TAB Construction to widen 156th St. to a four-lane divided urban section from Pacific St. to Wycliff Dr. Widening of Pacific St. to accommodate additional turn lanes. During construction multiple sections of deteriorated pipe were discovered under Wycliffe Drive at the intersection of 156th St. TAB Construction will be completing this work as soon as possible to finish work at this intersection. To complete this work as quickly as possible Wycliffe Drive will be closed at the intersection of 156th Street this upcoming weekend. Closure of the street will start Thursday (8/17/2023) morning and will be closed until Monday (8/21/2023). To help alleviate east bound traffic the intersection at 155th Avenue is open to traffic from 156th Street.

The planned construction limits will be within the Public Right-of-way and/or within construction easements already granted to the City by property owners. Reconstruction of Wycliffe Drive will include removal of existing pavement, existing storm sewer, and vegetation. Then the replacement of these facilities will be the same day or the next day. **The City of Omaha does not anticipate the intersection being closed for more than the dates listed above unless there are unforeseen issues.**

Thank you in advance for your patience during the closure and your cooperation during construction.

Sincerely,
TAB Construction Company

QUESTIONS OR COMMENTS?
